## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to the amended claims, see the amendment filed 6/29/04, with respect to the rejection(s) of claim(s) 1-5 (1-9 as in the action) under 102 (b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of US 6,748,276 to Dagnault et al.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by US 6,748,276 to Dagnault et al. Note in particular column 5 lines 35 et seq., wherein slider controls are used for setting the implanted device operational parameters, e.g. amplitude. Note too that the "overall-amplitude control" is considered to maintain a mathematical relationship between the interrelated parameters, e.g. percentage of maximum amplitude, as well as maintain a stable performance envelope. Changing the

overall adjustment would cause the other constraints (parameters) to "consistently respond" or change per Claims 4 and 5.

### ***Claim Objections***

Claim 3 is objected to because of the following informalities: "envelop" should be - - envelope- - . Appropriate correction is required.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
